XP, Windows 7 and Windows 8.

DEVELOPMENT LANGUAGES - HTML5, CSS3,
JavaScript.

APPLICATIONS - Adobe Creative Suite (Photoshop,
Illustrator, After Effects, Sketch) - Microsoft Office
(Word, Excel, PowerPoint, Access).

► TEAMWORK

Teamwork is the most effective method used when producing creative work; this is the way I work best. I have previously worked within groups in technical college and university, I have also created freelance work in a team that I had to get feedback from other members of the team before continuing on with the task. Being able to work productively within a team means that I do well under pressure and enjoy combining various ideas and views to make an overall better product.

► DRIVE

I am always driven to achieve and to improve my skills, I have the determination to produce work of a high standard. I am constantly trying to make things more aesthetically pleasing and visually clear to understand. Once I see something new, such as a new style or medium; I am driven to try and learn it so that I am it be able to create new and novel styles and creations.

► FLEXIBILITY

I adapt well to different environments, changing situations and meeting deadlines. I'm currently doing freelance work as a designer/illustrator with an indie game developer who works in London. We have planned and discussed over Skype our ideas, and set dates for concept work and meetings. When I started working with him, I was also juggling two other freelance projects at the time and working for NIE, and I was able to keep everything on track.

► INITIATIVE & SELF MOTIVATION

I push myself to the limit, I aim to create high quality work by going above and beyond what is expected of me to create a truly visually appealing piece of work that I would be happy to show to a client and use myself. This year at university we were given a project to create a weather app and modify a template that was given. I created my own from scratch and went for a completely different simplistic style.

► CREATIVE

One of my top skills and qualities would be my creativity, as I have a strong passion for both art and design. I pride myself in being a perfectionist, and strive to complete my work to the highest standard possible. I am experienced with most creative mediums, from pen and paintbrush to graphic work, and I am always looking for new ways to express my creativity such as 3D sculpture.

► WORK EXPERIENCE

MAY 2015 - PRESENT

FREELANCE DESIGNER

I currently work as a freelance designer, creating various graphics for people and companies from Northern Ireland to America and Canada.

FINISHED AND CURRENT PROJECTS:

- NISP

JULY 2015 - SEPTEMBER 2015

NORTHERN IRELAND

ELECTRICITY NETWORKS

Over the summer I took an internship at NIE Networks. My job role during my time there was to help with the rebranding of the company.

MY RESPONSIBILITIES INCLUDED:

- Attending meetings.
- Creating electricity forms
- Creating fact sheets.
- Creating meter reading cards
- Animated Instructional videos
- Helping with the brand guidelines
- Creating graphics and icons that they could easily modify for when I left.

OCTOBER 2012 - DECEMBER 2012

VILLEROY AND BOCH UK

POSITION: GENERAL ASSISTANT

My job role involved situations where I was required to work both independently and as part of a team, ensuring deadlines are met. Punctuality and reliability were key attributes as I was responsible for ensuring that all stock is available for customers.

MY RESPONSIBILITIES INCLUDED:

- Assisting customers to find goods and products they are looking for.
- Giving advice and guidance on product selection to customers.
- Receiving and storing the delivery of large amounts of stock.
- Keeping up to date with special promotions and putting up displays.

► ACHIEVEMENTS

- DEAN'S LIST AWARD 2015

I was awarded the Dean's list award for coming top in my year.

- TRUE COLOURS ART EXHIBITION 2013

My GCSE final piece was displayed in the Ulster Museum

- 100% GCSE ART AND DESIGN

► INTERESTS

I have a passion for almost anything creative; painting, drawing, design, and graphic art. I love what I do, and anything within the bounds of the creative field, so even when I am not doing work/coursework I am looking into various mediums and artists, and then I try learn the skills that they have. I have a second passion, which is for games. I love anything game related and the art that is used within them.
